## Firelas™ Cure Laser Therapy Device

Firelas brings together the strengths of every laser previously developed by GIGAALASER. It delivers four wavelengths in one system, 635nm, 810nm, 980nm and 1064nm, with continuous output power up to 30.5 watts. Built on a simple and intuitive Android operating system, Firelas is easy to use from the first session. You can track treatment times, save your own protocols, view patient profiles directly on the device, and update the software online whenever needed.

### Features

- Four wavelength system
- Thirty watt output
- Intuitive Android interface
- Save treatment protocols
- Track treatment times
- Smart online updates
- Interchangeable lens options

Code	RRP	Sale
FIRELAS	\$26,150.00	\$21,425.00

## Orthotiks™ 3/4 Insoles

Orthotiks are TGA-approved shoe inserts designed to provide relief for foot pain, offering a smarter foot care solution. They cost 70% less than traditional custom orthotics and feature a slim design that fits comfortably in any shoe without squashing toes. Sold in pairs.

# Modus Shockwave Therapy

## Radial ESWT Shockwave Therapy

Radial shock wave therapy is a multi-purpose treatment system used in orthopedics, physiotherapy, chiropractors, sports medicine, aesthetics, beauty and veterinary medicine. Radial ESWT devices have a pistol-like handpiece. The bullet in the handpiece moves at a high speed. The bullet hits the tip of the applicator, and the collision creates a pulse of kinetic energy.

### Features

- Powerful ESWT up to 22 Hz / 5 bar
- Lightweight, portable (10 kg)
- Treat anytime, anywhere
- Simple screen controls
- Pre-set treatment programs
- Visual, written & video guides
- Built-in compressor with stand
- Detachable for easy transport

[View Online](#)

Code	RRP	Sale
MESWT	\$20,000.00	\$17,990.00

Radial ESWT Shockwave Therapy

## Focused ESWT Shockwave Therapy

Focused Shockwave Therapy is a non-invasive treatment for deep, chronic musculoskeletal conditions. A focusing mechanism directs each shockwave to a precise point for targeted relief—no anesthesia or surgery required—and it's suitable for patients who can't tolerate radial treatments.

### Features

- Impulses up to 4 Hz and 0.25mJ
- Heads deliver shockwaves 0–80 mm deep.
- Power adjustment up to 25 levels
- Portable, anywhere, anytime treatment
- Preset programs with written and video guides.
- Patient registry & follow-up archive
- Adjust frequency & power during treatment
- Maintenance-free generator and handpiece
- On-screen parameters for quick adjustments.
